

RCUK Gateway to Research

User Guide – Gateway to Research (GtR) CSV export Glossary/Data Dictionary

Issued February 2014

Purpose: This Glossary is to serve as a guide for using the CSV export function to extract the information from your search on the GtR Portal and also provide definitions of the column headings which appear in shortened form in the downloaded Excel Spreadsheets.

How to use the CSV export

When you have searched for your item (e.g. "Mouse"; or 'Robotics'), click on the CSV (Comma Separated Variable) button  on each of the relevant page (Projects, Publications or Organisations) to get the results of your search in a spreadsheet.

Note – Project Abstract is not currently included in this export functionality due to the potential considerable size of this piece of information and the effect it may have on the system when downloading.

Definition of Column headings by export – for further explanation about each data element please see the GtR Data Dictionary [[insert link http://gtr.rcuk.ac.uk/resources/DataDictionary20131128.pdf](http://gtr.rcuk.ac.uk/resources/DataDictionary20131128.pdf)]

Note - the information below marked as internal unique references are identifiers created within GtR and may assist you in identifying those pieces of information that may be common e.g. each Principle Investigator called John Smith will have a unique identifier in the PIId column. This will help you identify that you have the correct John Smith.

PROJECT CSV export

FundingOrgName - Funding Organisation

LeadROName - Lead Research Organisation

GrantReference - Grant Reference

GrantCategory - Grant Category

PISurname - Principal Investigator Surname

PIFirstName - Principal Investigator First Name

PIOtherNames - Principal Investigator Other Names

Title - Project Title

StartDate - Project Start date

EndDate - Project Start date

AwardPounds – Funded Value
ExpenditurePounds - Actual Spend
FundingOrgId - GtR internal unique reference for the Funding Organisation
LeadROld - GtR internal unique reference for the Lead Research Organisation
PIId -GtR internal unique reference for the Principle Investigator
ProjectId- GtR internal unique reference for the Project
GTRProjectUrl – GtR Universal Resource Locator

PUBLICATIONS CSV export

FundingOrg - Funding Organisation
GrantReference - Grant Reference
LeadRO - Lead Research Organisation
PublicationType - Publication Type
Author - Publication Author
Year - Year of Date Published
Title - Publication Title
JournalName – Journal title
Volume - Volume Number
Issue - Issue Number
Pages - Page Reference
DOI - Digital Object Identifier of Publication
PMID – The PubMed Unique id
URL – Publication Universal Resource Locator
